ABOUT ME

I am a passionate Full-Stack Developer with over 4 years of professional experience in building scalable and efficient web and mobile applications. Holding a Bachelor's degree in Informatics Engineering with an impressive GPA of 3.36, I bring a combination of strong technical expertise and a deep commitment to delivering exceptional results. My adaptability, problem-solving skills, and eagerness to learn new technologies allow me to thrive in dynamic environments and overcome challenges effectively. I am confident that my skills, experience, and dedication can make a significant contribution to achieving the company's goals.

EDUCATION

Pamulang University   **South Tangerang , Indonesia**
*Bachelor of Informatics Engineering,*GPA: 3.36/4.00   *September 2016 – January 2020*

EXPERIENCE
